My Choice!

When the going gets tough,
 InVigor® R 3520 really gets going

InVigor R 3520 delivers exactly what the InVigor brand stands for – the highest levels of innovation and performance. InVigor R 3520 is a major step up from previous short-season hybrids with excellent performance in low to medium rainfall environments.

So why choose InVigor R 3520?

- Good performance across lower rainfall areas in NSW & VIC.
- Consistently outperforms Hyola® 404 & 43Y23.

Plus, enjoy all the MySeed program benefits:

Pay@HarvestTM

Sow and grow this top performing InVigor variety and don't pay a cent until **Nov. 30, 2019**. See your agent or visit myseed.com.au

Replace MySeedTM

Our seed replacement guarantee**.

VARIETY PROFILE

Herbicide tolerance:

Flowering maturity: **Early to Early-Mid (3.5)**

Blackleg rating: R (with Jockey® Stayer®)
 MR (with EverGol® Xtend)

Blackleg grouping: As yet unknown group

Alternative to: Hyola 404, 43Y23, 43Y29, DG408, Stingray, Bonito

Vigour: Excellent

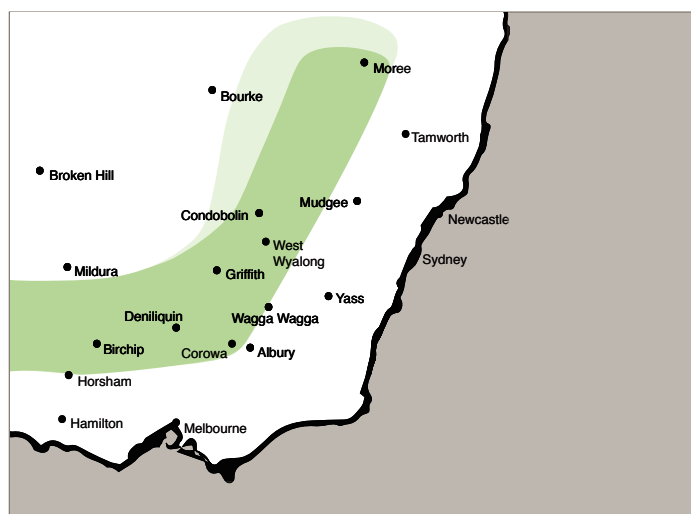

Oil: Very good

Plant height: Medium – ideal for direct harvesting

Lodging resistance: Good

PodGuard®: No

IDEAL GROWING AREAS

SEED TREATMENT OPTIONS

Available with
 either:

Or

A highly effective broad spectrum insecticide.

Vital early-season blackleg suppression.

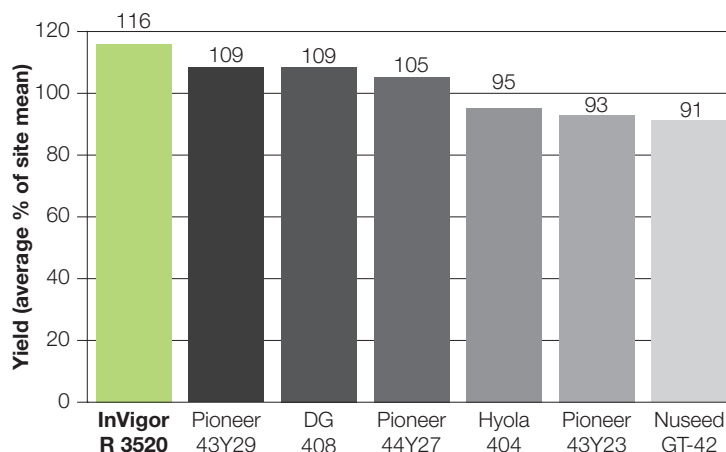

Innovative new generation fungicide (SDHI).

High yields at early timings

The 2016 & 2017 NVT results confirmed what internal trials had already indicated: that InVigor R 3520 is the new standard in early-season performance.

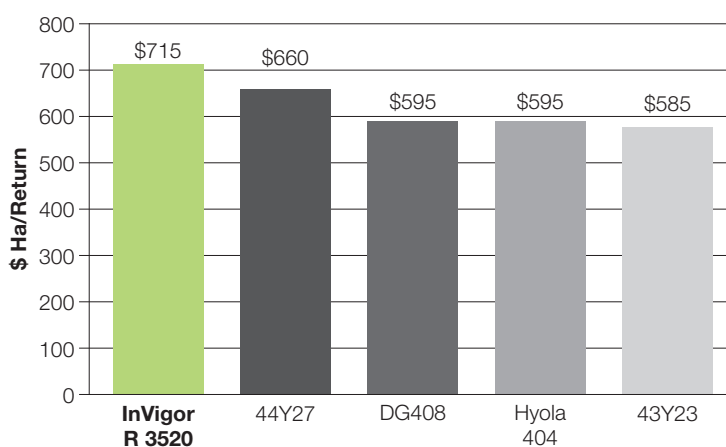

Data compiled from 2017 early NVT sites in VIC & NSW.

Great returns in tough conditions

Data compiled across yield trials in key target growing areas in NSW and VIC indicate InVigor R 3520 will deliver its money's worth.

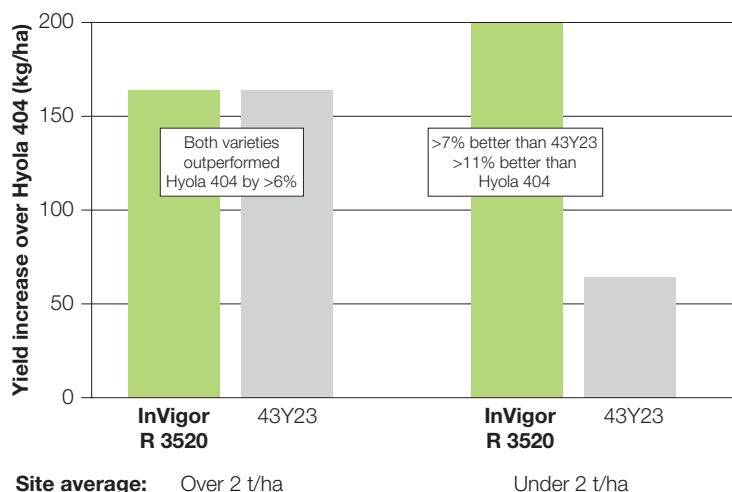

Data compiled from 2017 early NVT sites in VIC & NSW.

Performs well under difficult conditions

Across the 2015 & 2016 BASF breeding sites, InVigor R 3520 excelled. Both InVigor R 3520 and 43Y23 produced significantly stronger yields than Hyola 404 under all conditions. When the site average dropped below 2 t/ha, InVigor R 3520 showed its clear superiority over 43Y23, making the best of challenging conditions.

2015 sites included: Carnamah, Kellerberrin, Longerenong, Meckering, Nyabing, Temora. 2016 sites included: Cunderdin, Geraldton, Lah, Longerenong, Meckering, Mingenew, Scaddan and Wail. All Bayer early breeding trial data used where trial mean yield was less than 3 t/ha.
